

NHS South Tees SALT Service Websites

As South Tees NHS are currently not able to offer direct face to face intervention with their children at this time, they have set up a facebook page which they are directing their families to. It is called "South Tees NHS Children and Young People's SALT service".

They are being very brave!! and uploading video advice clips as well as linking into other helpful sites. You can also find these video clips on their YouTube channel at "South Tees SALT Service Children and Young People"

They also have a Twitter account and can be found at "@SouthTeesSALT"
