<b>Maths</b>	Design an 'Olympic Archery Target' with coloured rings (use an empty cereal box or piece of paper). The target has ten concentric circles that score from 10 to 1 from the smallest ring scoring 10 and the outer ring scoring 1. Use a counter or a coin and take turns to flick your counter towards the target board. After each turn, keep a record of your scores. After each player has had ten turns, add up your scores. The highest total wins.

Remember to organise your writing with sub-headings. Remember to include an orientation and a reorientation too. Ready, steady, GO!
<b>Wider Curriculum</b>	As you probably already know the 2020 Olympic Games in Tokyo has been postponed due to the Covid 19 virus, unfortunately, the organisers had already made the medals for the winning athletes, but they need to be redesigned due to the change of date. Your challenge is to design and make new medals for the first, second and third placed athletes. You might want to include a reminder of why the Olympics have been postponed!
